

Up to date market monitoring on order

PharMonitor

The most individual product by DACON.

Output fields free to choose indicate price changes, new introductions of drugs and changes in status of marketing regularly.

As easy as it can get:
via E-Mail
at fortnightly intervals
always up-to-date

Subscribe to pharmaceutical currentness!

Up to date market monitoring on order

Main principle

Information on pharmaceutical drugs really makes sense only when they are current.

Claim

PharMonitor offers the opportunity to be on top of the hottest news.

You need frequent updating on information concerning

- raises in prices
- lowering in prices
- introductions of drugs
- changes in status of sales and marketing

Free choice

Decide on your own on which criteria your list shall be structured. This can, for instance, be the ATC Code. Also, your fields of information or challenge can be chosen at your choice, such as article description, dosage form, manufacturer, amount, fixed amount price, Taxe wholesale price, old retail price, new retail price, difference in percentage etc.

Security

PharMonitor is linked directly to [pharmazie.com] and therefore is absolutely reliable, serious and professionally researched.

Actuality

You will receive the data on every 1st and 15th of the month via e-mail. Via link on your personal report.

Saving

Choose for yourself whether you prefer saving as HTML or pdf file.

Backtracking

It is possible to trace changes back to the middle of the year of 2007 – if you wish to do so.

Requirements

PharMonitor cannot be licenced separately but is bonded to a licence of ABDA-database: item master data (Taxe). Transparency list license is included in the service package.

Prices

Accommodation of your personal pharmaceutical drug filter and updating service: 500 Euro single setup fee.

Accommodation of your personal access to [pharmazie.com]: 100 Euro single setup fee

Changes of filter requirements on demand (expansion or constiction): 200 euro single fee

Current compilation of HTML documents including distribution via e-mail every second week: 100 Euro monthly

License for ABDA-database: item master data (Taxe) on [pharmazie.com]: 22 Euro monthly for each license

(All prices plus sales tax within Germany)
