## 2. List of transparency

Clarity in your daily routine.

You are working with a large amount of data that are needed for the evaluation of a variety of pharmaceutical matters.

Simplify your tasks with the latest up-to-date- information of the list of transparency in [pharmazie.com].

The comparison of on the market galenicals within one fix price group (Festbetragspräparate) can help you to determine your own prices within the discount contracts.

Find your way through the discount jungle providing lucidity-

### 3. ABDA stocklist database

A matter of moment

The ABDA database includes all economic data (prices, package sizes, registered numbers for ordering, etc.) for all drugs sold in pharmacies.

Have a look at the price history of a galenical , on payback-informations for German health insurance companies (GKV) and price calculations of bandaging material and supportive materials.

Furthermore this database contains about 3000 pharmaceutical manufacturers from the ABDA Artikelstamm stocklist.

A lot of information- clearly on your mind!

## Last but not least
